THREE-LAYER BLOCKOUT DISPLAY FILM
204 Specification Sheet

PRODUCT DESCRIPTION

This opaque, economical, water-resistant matte display film combines front and back layers of polypropylene with a center layer of light-blocking polyester. The blockout layer hides banner-stand hardware and keeps the surface graphics looking bright, colorful, and easy-to-read.

The three-layer film is non-yellowing, curl-resistant, and dimensionally stable. Lamination is optional but recommended for dye-ink prints or longer-term displays.

COMPATIBILITY

AQUEOUS DYE
AQUEOUS PIGMENT
LATEX

PHYSICAL PROPERTIES

CONSTRUCTION: Polypropylene + PET (polyester) film + polypropylene
BASE CALIPER: 10 mil
BASE WEIGHT: 235 gsm
