

PRODUCT DESCRIPTION

This smooth, white, water-resistant matte polyester (PET) film features a dot-patterned, repositionable adhesive that makes it easy to install window graphics and POP signs without bubbles or wrinkles.

The bright, vivid graphics printed on this durable, dimensionally stable inkjet window film can be contour cut. Graphics will not shrink or peel off over time when installed under the right conditions.

COMPATIBILITY

AQUEOUS DYE
AQUEOUS PIGMENT
UV CURE
LATEX

ADVANTAGES

- Durable, water-resistant, no-glare film
- Dimensionally stable for no-shrink graphics
- Adhesive dots make support repositioning
- Supports heavy inks for bright, vivid colors
- Easy-install graphics do not peel off over time

APPLICATIONS

- Window graphics
- POP signs
- Contour-cut decals
