

6995 Enduro Inkjet 110 Classic C2S 5 mil

PRODUCT DESCRIPTION

6995 Enduro Inkjet 110 Classic C2S is a tear-resistant composite material consisting of a PP film core sandwiched between two surface treated inkjet papers. The special paper surface provides for fast drying, high color brilliance, and good print contrast. With an opacity of 96%, this paper handles technical print on both sides. It also offers excellent writability and allows pencil marks to be fully erased without any loss of the printed image below. Enduro Inkjet 110 Classic's multiple layer construction offers a durable solution that is affordable, eco-friendly, PVC-free, and FSC®-certified. Since the paper fibers are recoverable through standard paper-recycling processes, the material may be disposed of along with household paper waste.

Enduro Inkjet 110 Classic is compatible not only with aqueous dye and pigment inkjet systems, but can also be used on the HP PageWide, or in offset or flexo printing.

ADVANTAGES

- High Fold Strength
- Good Tear Strength
- C2S Double Sided Printable
- Unique Coating Design Allows Lines to be Erased and Redrawn in pencil for Field Changes

APPLICATIONS

- Maps, Nautical Charts, Charts, Technical Drawings

PHYSICAL PROPERTIES

Caliper	5 mil
Basis Weight	110 g/m ²
Opacity	96%

*All values listed are target values

ADDITIONAL INFORMATION

- Available size: 36" x 150' - 3" core
