# 804 - Stay-Flat Polypro Banner

Stay flat production polypropylene. This Production polypropylene has a specially formulated coating on the backside to force the media into laying flat on both sides. It's superior tear resistance and the matte microporous coating give it the ability to reproduce photo quality images and make this the ideal media for indoor signage. Use with dye, pigment, or latex inkjet inks.

- Water resistant with dye/pigment & latex inks
- Non-glare matte finish
- Extremely tear resistant
- Economical

### Applications

- POP Display
- Indoor Banner
- Photo & Graphic Displays
