

805- Self-Adhesive Matte Polypropylene Film

New and improved liner and print quality! This production grade polypropylene produces high performing adhesive film banners. It's superior tear resistance and the matte microporous coating give it the ability to reproduce photo quality images and make this the ideal media for indoor signage. Use with dye or pigment or latex inkjet inks as well as UV. Clear permanent adhesive.

- Water resistant with dye/pigment & latex inks
- Non-glare matte finish
- Extremely tear resistant
- Economical

Applications

- Wall or Window Signage
- Flexible or Mounted Signage
- Photo & Graphic Displays

Physical Specifications

Base Weight: Grams/m2	180
Caliper (mil)	8
Liner	PP Synthetic Film
Whiteness	110
Storage	Indoor, 3 yr. between 50-80°
Life Expectancy	Indoor 3 Years

This product has been tested with laminates. Pressure sensitive laminates provided the most aggressive bond and are recommended for use with this product. Lamination will help to extend the life of your print by reducing the rate of fade and protect against abrasion. Life extension varies due to climate and environmental conditions.
